Infinity Dreamscapes

Business Operations Announcement

Please Note:

Infinity Dreamscapes is temporarily adjusting its standard operating hours to accommodate critical personal and security obligations.

As a Licensed Professional Massage Therapist dedicated to both clinical excellence and community leadership, our business owner is currently balancing practice operations with a temporary assignment providing New Mexico State Security. This role directly supports family lineage and care for Retired Navajo Nation Deputy Police Chief and Retired Gallup McKinley County Undersheriff, Franklin Morris Sr.

Because the massage therapy profession nationwide primarily relies on structured, pre-scheduled appointments rather than walk-in availability, this temporary shift will not disrupt our high standard of clinical care. We are actively modifying our booking availability to ensure all clients continue to receive uninterrupted therapeutic sessions.

- **Scheduling Protocol:** All treatment services continue to require pre-scheduled appointments and completed intake documentation.
- **Contact Policy:** Please submit all inquiries and scheduling requests through our official website contact page or our designated text-only line.

Thank you for your mutual respect for professional boundaries and family commitments.

We look forward to seeing you at your next scheduled session.
